Stitched size: 2 ½" x 2 "on 14 perforated paper

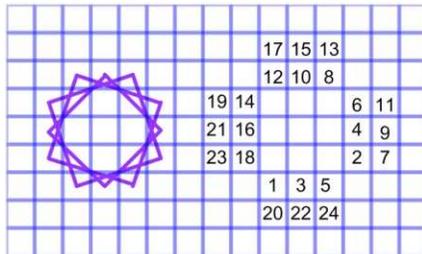

Material List

1. 3" x 3" White perforated paper (#PP1)
2. Crystals- Crystal (#13023 rondele 4mm)– 14
3. Light Siam (#13071 rondele 4mm) – 2
4. Crystal Teardrop (#13057) -1
5. Strand silk or cotton – Red
6. Kreinik #8 – Gold (#B223/#B1223Braid)

What you will Need

1. Size 24 needle and small needle for beading
2. White or red sewing thread for attaching beads, if needed

Note: For purposes of this design each square in my diagrams represents one hole on the canvas, and each horizontal or vertical line is one thread of the canvas. For the numbered stitch diagrams, the needle will come up on the odd numbers and go down on the even numbers **Also Figures that have 2 rows of numbers, like Jessicas, share the same inner hole and are just shown this way for easier reading, see example:**

Note: With most all **Jessicas**, you will achieve a neater appearance by placing the last or 4th side of stitches, numbers 20, 22, and 24, behind the first row of stitches.

1. On the bottom of your paper, measure to the middle, go up 1" and this will be your starting point. Shown on **Figure 2**, with a **blue dot**.

Instructions

2. The **3x3 Jessica Border** is worked with **2 strands Red**; see **Figure 1** for count, and **Figure 2** for placement. **When you get to the top, make sure that it lines up with the bottom!**
3. The **Center Jessica** is done with **Kreinik #8 gold**, see **Figure 1**.

Beads

4. For **beading**, use **1 strand Red**, and a small needle. I find that the crystals lay better if you go over two canvas threads so the beads can lay nestled into the hole of the canvas. Please stitch each bead twice so they will not wobble!

Crystals are shown with **red dots**. You can substitute **Smyrna Crosses** in **Gold** for the crystals around the edge, and a large **Rhodes** in the center in **Red**.

5. In the **Center Jessica** place two **Lt Siam** crystals.
6. Inside the **3x3 Jessica Border** place a **Crystal** crystals.
7. At the bottom place a **Teardrop Crystal**.
