Happy Halloween

Designs by Val's Stuff

Tricks or Treats

Happy Halloween

Stitch ct. 35H x 40W; paper size: 3 x 3 1/2 inches

Felt size: 4 x 4 1/2 (I used black felt for both designs)

Tricks or Treats

Stitch ct. 31H x 47W; paper size: 3 x 4 inches

Felt size: 4 x 5

Note: You will be cutting away some of the felt, but having a slightly larger size to begin with will leave you with a margin for error!

Both designs are stitched on 14 ct. **Antique Brown perforated paper; (PP3U) from Wichelt Imports, Inc.**

To begin stitching, leave two rows on all sides of the paper. I find that it is easiest to begin stitching in the upper left corner. Use two strands of floss and a #24 tapestry needle.

Stitch the background behind the pumpkin with DMC 554. Backstitch the pumpkin, eyes, mouth, leaf, and stem with one strand of DMC 310. Long stitch the lines in the mouth with one strand of DMC 310.

Stitch the background on **Tricks or Treats** with DMC 554. Backstitch the cat, candy, and eyes with one strand of DMC 310. Long stitch the mouth with two strands of DMC 310. Long stitch the whiskers with one strand of DMC Blanc (white).

To finish each ornament, cut away all of the paper in the row closest to the stitching. (There will be one row of paper around the stitching). Place the paper on top of the black felt. With one strand of **DMC 310**, backstitch around the border, through both the paper and felt until the ornament is completely stitched to the felt. You may also use fabric glue if you prefer it to stitching.

Cut away the felt with pinking shears or a rotary cutter, to within about 1/4 of an inch of the paper. If you don't have pinking shears, you can cut the felt close to the paper with regular scissors -- the felt is primarily for stability. Use a length

of black pearl cotton floss or 6 strand floss as the hanger. Loop one through each of the upper back corners of the felt and knot securely.
